EDUCATION

U V Patel College of Engineering, Ganpat University, Mehsana
B.Tech - Computer Engineering - **CGPA - 7.8**

2021-2025
Mehsana, Gujarat

EXPERIENCE

Food Hut (FreeLance) | *PHP, JavaScript, Laravel, Blade, Google APIs* **Oct 2023 - Nov 2023**

- Enhanced a restaurant food delivery system with new features, improving efficiency, user experience, and customer engagement.
- Build the nearest store feature using Google Maps APIs and Added Google Authentication.
- Integrated a dashboard, highlighting monthly best and worst performing products.

PROJECTS

Ease Chat | *Nodejs, Nextjs, Typescript, Shadcn UI, PostgreSQL* | [🌐 Live Link](#) **Aug 2024 - Sep 2024**

- Developed a dynamic chat platform with real-time messaging, utilizing PostgreSQL for efficient data management and JWT for secure authentication via Sequelize ORM.
- Enhanced user experience with optimized state management, smooth chat history scrolling, and seamless integration of Socket.io for instant message delivery.
- Implemented responsive UI elements and secure data handling, ensuring a fluid and protected chat interface.

TaskFlow Manager | *NextJs, TypeScript, TailwindCSS, NodeJs* | [🌐 Live Link](#) **July 2024 - Aug 2024**

- Built a dynamic task management system with drag-and-drop functionality for intuitive task reordering and status updates.
- Integrated automatic task sorting by priority, ensuring efficient tracking and management of tasks.
- Optimized real-time UI updates and batch database interactions to enhance performance and responsiveness.

Placement Helper | *JavaScript, Ejs, NodeJs, ChartJs, MySQL* | [🔗 Source Code](#) **June 2023 - Aug 2023**

- Developed a web app for the placement cell, For better communication between the college, companies, and students.
- Implemented a secure backend system for organized data management and real-time placement tracking, enhancing overall user experience.
- Created reporting tools that enhance data-driven decision-making, leveraging Chart.js for dynamic and interactive visualizations.

TECHNICAL SKILLS

Languges: C, C++, PHP, Javascript, Typescript

Technologies/Framework: NextJS, ReactJS, NodeJS, Laraval, MongoDB, PostgreSQL

Developer Tools: Git, GitHub, Slack, VS Code, , Postman API, Replit, Vercel, Firebase

ACHIEVEMENTS

- LEETCODE** : **1969+** Rating , Solved **700+** Problems And Secured **930** Rank out of **28000+** participants
- Coders Club (Lead Member)** : Conducted sessions on Competitive Programming (CP) and Data Structures Algorithms (DSA) to promote coding culture.
- Convergence Webathon 2024** : Secured 1st place out of 100 participants.
- Hackathons** : Participated in SSIP(Finalist), SIH, and Hack This Fall, Demonstrating teamwork, creativity, and technical expertise.
